Summary

Product Designer with 3+ years of experience building intuitive, data-driven digital products, including AI solutions, for **10+ global audiences** across the **US, Europe, & Australia**, ensuring usability across diverse user needs & cultural contexts. Passionate about simplifying complex workflows & creating meaningful experiences that enhance user satisfaction & product value.

Professional Experience

Company: MindYogi.me | 6 months

Nov '25 - Mar '26

Role: *Design Consultant* | **B2C, Mindfulness & Wellbeing, Conversational UX, Gen AI**

Skills: **GenAI | Conversational UX | Prototyping | AI Service**

- Designed & prototyped **conversational AI experiences** using a **Generative AI tool (Stitch)**, focusing on creating intuitive, human-like interactions for user engagement & onboarding completion.
- Continuously **iterated** on conversational flows & user journeys based on feedback & behavior insights, enhancing overall usability & retention.

Company: Coditas Solutions | 3 Years

Oct '22 - Oct '25

Role: *UX Designer* | **B2B, SaaS, Healthcare, CRM, AI**

Skills: **Design System | Accessibility (WCAG) | Prototyping | Usability Testing | AI Service**

- Established scalable design systems, ensuring consistency & speeding up product delivery.
- Optimized existing user flows to meet accessibility standards (WCAG), resulting in **100% improvement in overall usability**.
- Led an AI-driven roleplay module, boosting sales practice by **75%** & increasing prospect conversions by **45% in one month**.
- Conducted user research, stakeholder interviews, & competitor analysis to define MVP scope & product direction for an **AI-based mental well-being application**.
- Designed **conversational UX flows** for **LLM training** with clear dialogue paths, improving patient engagement by **69%**.
- Turned complex requirements into **prototypes & micro-interactions**, reducing development rework.

Role: *Associate UX Designer* | **B2C, SaaS, LMS, FMS, HRM**

Skills: **UX Research | Journey Mapping | IA | Wireframing | Persona | User Flow | UI Design | Interaction Design | Human Centered Design Process | Leadership**

- Led end-to-end design of **patient profile & medical file management** workflows, improving navigation clarity & reducing user errors by **12%**.
- Redesigned inventory tracking & categorization flows, resolving system inefficiencies & improving operational efficiency by **80%**.
- Designed a **Learning Management System (LMS)** with personalized learning paths, progress tracking, & role-based dashboards to improve learner engagement.
- Contributed to **HRM workflow design & WA integrations**, streamlining recruitment processes & improving passive candidate conversion by **10%**, with a **4% increase in overall hiring ratio (FY'22)**
- Created wireframes, prototypes, & UI specs aligned with business & technical needs.
- Worked cross-functionally with PMs, QA, & engineering teams to iterate designs based on usability feedback & data insights.
- Designed user experiences for a **hospitality & tourism platform**, enabling seamless discovery of travel experiences.

Company: Firstcry (Brainbees Solution) | 1.7 Years

Mar '20 - Jul '21

Role: *Product Stylist*

Skills: **Product Styling | Stop Motion | Research & Development | Creative Direction | Advertising styling**
